

FINAL REPORT

# Water Supply and Water Conservation Management Plan

September 2003

2030

Prepared for  
Metropolitan North Georgia  
Water Planning District

Submitted by

## Acknowledgements

We owe special thanks to those individuals who gave their time, expertise, and insights to create this Plan. They brought diverse perspectives to create sound, achievable goals for the Metropolitan North Georgia Water Planning District. These people include participants in the Technical Coordinating Committee, the six Basin Advisory Councils, the Georgia Environmental Protection Division, MACTEC Engineering Consulting, Inc., the District planning staff provided by the Atlanta Regional Commission, and those who provided written comments on the plans.

We would also like to acknowledge and thank members of the Water Supply and Water Conservation Management Planning team whose valuable contributions were essential in developing this Plan. These include:

- Maddaus Water Management,
- McKenzie MacGregor Incorporated, and
- USInfrastructure, Inc.

EXECUTIVE SUMMARY	
Plan Highlights .....	ES-2
Introduction.....	ES-3
Planning Process.....	ES-3
Technical Coordinating Committee and Basin Advisory Councils Participation.....	ES-4
Key Planning Assumptions.....	ES-5
Policy Goals .....	ES-5
Integration of Planning Efforts .....	ES-5
Existing Water Supply and Treatment Facilities.....	ES-6
Existing Water Supplies.....	ES-6
Existing Water Treatment Facilities .....	ES-7
Existing Water Supply Interconnections.....	ES-7
Existing Interbasin Transfers .....	ES-7
Water Demand Projections .....	ES-8
Water Conservation Analysis .....	ES-9
Water Supply Issues.....	ES-10
Water Supply Source Evaluation .....	ES-10
Alternatives Development and Evaluation .....	ES-11
Water Conservation Program.....	ES-12
Water Supply Facilities .....	ES-12
Water Systems Interconnection Recommendations .....	ES-15
Local Planning Recommendations.....	ES-16
Flexibility within the Plan .....	ES-17
Legislative and Regulatory Recommendations.....	ES-17
Governance and Inter-jurisdictional Collaboration.....	ES-18
Funding.....	ES-18
Education and Public Awareness.....	ES-19
Implementation Actions .....	ES-20
Assessment of Progress .....	ES-21
Conclusion.....	ES-21

SECTION 1 – INTRODUCTION

    Planning Process ..... 1-3

        Water Supply and Conservation Management Planning Steps..... 1-3

    Public Participation ..... 1-3

    Policy Goals ..... 1-4

    Planning Assumptions..... 1-4

    Report Organization..... 1-5

    Integration of District Planning Efforts ..... 1-6

SECTION 2 – PLAN OVERVIEW

    Critical Strategies ..... 2-2

    Meeting 2030 Demands ..... 2-2

    Features of the Plan ..... 2-3

    Water Conservation Program ..... 2-8

    Water Supply Facilities ..... 2-8

    Water System Interconnections ..... 2-9

    Local Planning Recommendations..... 2-9

    Flexibility Recommendations ..... 2-9

    Regulatory Recommendations ..... 2-10

    Governance Recommendations ..... 2-10

    Funding..... 2-10

    Education and Public Awareness..... 2-11

    Integration with Other District Plans ..... 2-11

SECTION 3 – EXISTING WATER SUPPLY AND TREATMENT CONDITIONS

    Existing Water Supplies..... 3-1

        Interbasin Transfers..... 3-4

        Planned Reservoirs..... 3-5

    Existing Water Treatment Facilities ..... 3-6

    Existing Interconnections ..... 3-9

SECTION 4 – WATER DEMAND PROJECTIONS

    Population and Employment Projections ..... 4-2

        Population Projection Methodology ..... 4-3

        Employment Projection Methodology ..... 4-4

    Data Collected and Used ..... 4-5

    Methods of Analysis and Projection ..... 4-9

        Existing Water Use by County..... 4-12

    Baseline Projections with Existing Conservation..... 4-13

    Final Projected Water Demands with Future Conservation ..... 4-14

SECTION 5 – WATER CONSERVATION ANALYSIS	
Existing Water Conservation Plans and Programs.....	5-1
Ultra-Low Flow (ULF) Plumbing Fixture Requirements.....	5-5
Georgia Drought Management Plan.....	5-5
Evaluation of Alternate Water Conservation Measures .....	5-5
Menu of Potential Water Conservation Measures .....	5-5
Screening Process .....	5-6
Overview of the Evaluation Methodology .....	5-7
Comparison of Measures.....	5-10
SECTION 6 – WATER RESOURCES ISSUES AND POTENTIAL SOURCE EVALUATION	
Water Resources Issues.....	6-1
Water Supply Issues.....	6-3
In-Stream Flow Protection Policy.....	6-5
Water Supply Efficiency and Reliability .....	6-5
Water Quality Issues .....	6-7
Water Supply Watershed Protection .....	6-7
Proposed Groundwater Rule .....	6-7
Downstream Users .....	6-8
Emerging Contaminants.....	6-8
Treatment Standards.....	6-9
Other Water Resources Planning Issues.....	6-9
Water Supply Contingencies .....	6-9
Environmental Justice.....	6-10
Potential Source Evaluation .....	6-10
Potential Surface Water Sources.....	6-11
Potential Groundwater Sources.....	6-16
Water Reuse.....	6-17
Conclusions .....	6-21
SECTION 7 – ALTERNATIVES DEVELOPMENT AND EVALUATION	
Public Participation .....	7-1
Evaluation Criteria Development .....	7-1
Stepped Process for Developing and Evaluating Solutions .....	7-2
SECTION 8 – WATER CONSERVATION PROGRAM	
Recommended Actions and Milestones .....	8-1
SECTION 9 –PLANNED WATER SUPPLY FACILITIES	
Recommended Actions and Milestones .....	9-1
Capital Improvement Phasing Plans .....	9-4
SECTION 10 – WATER SYSTEM INTERCONNECTIONS	
Establishing Interconnection Reliability Targets .....	10-1
Summary of Recommendations .....	10-2
Implementation Actions .....	10-5

SECTION 17 - IMPLEMENTATION ACTIONS

Roles ..... 17-1  
 Action Items ..... 17-2  
 Implementation Costs ..... 17-10  
     Infrastructure-Related Costs ..... 17-11  
     Programmatic Costs ..... 17-12  
     Cost and Savings ..... 17-12

SECTION 18 - ASSESSMENT OF PROGRESS

Plan Reviews and Updates..... 18-1  
     Ensuring Plan Relevancy..... 18-2  
     Setting Common Expectations..... 18-2  
     Future Planning Work ..... 18-2  
     Reviewing District and Other Plans ..... 18-3  
     Recommended Annual Reviews & Updates ..... 18-3  
 Performance Measures..... 18-3  
     Type of Reports..... 18-6  
     Responsibilities ..... 18-6  
 Conclusions ..... 18-6

**TABLES**

ES-1 Summary of Existing Water Supply Sources..... ES-7  
 ES-2 Estimated Costs for District Water Supply and Water Conservation Plan ..... ES-13  
 ES-3 Local Water Planning Elements..... ES-16  
 ES-4 Implementation Responsibilities ..... ES-20

1-1 Screening Criteria for the Water Supply and Wastewater Management Plans ... 1-5

2-1 Added Water Supply or Reduced Demand for 2030 from Critical Strategies..... 2-2  
 2-2 Summary of Recommended Water Supply Sources and Water Treatment  
     Facilities ..... 2-6  
 2-3 Estimated Costs for District Water Supply and Conservation Plan for 2003  
     to 2030..... 2-11

3-1 Existing Surface Water Supplies ..... 3-2  
 3-2 Existing Groundwater Supplies ..... 3-4  
 3-3 Planned Reservoirs ..... 3-6  
 3-4 Existing Surface Water Treatment Plants ..... 3-7

4-1 Population and Employment Projections by County ..... 4-5  
 4-2 Population and Employment Projections by Basin ..... 4-5  
 4-3 County Water Withdrawal and Losses ..... 4-6  
 4-4 AWWARF Single Family Water End Uses ..... 4-11  
 4-5 Existing Per Capita Use by County (AADD) ..... 4-12  
 4-6 Baseline Water Use Projection by County (MGD, AADD) ..... 4-14

4-7	Baseline Water Use Projection by Basin (MGD, AADD) .....	4-14
4-8	Final 2030 Water Use Projections by County with Aggressive Conservation.....	4-15
5-1	Summary of the Existing District Water Conservation Plans .....	5-1
5-2	Federal Water Use Requirements for Ultra-Low Flow Fixtures.....	5-5
5-3	District-Wide Results of Conservation Measures Evaluation.....	5-11
5-4	Description of the 25 Conservation Measures Evaluated in the DSS Model.....	5-12
5-5	District Wide Results of Option Packages Evaluation .....	5-15
5-6	County Results of Option Packages Evaluation .....	5-16
5-7	Additional County Results of Option Packages Evaluation.....	5-16
5-8	Water Treatment Cost Savings from Conservation Program B.....	5-21
5-9	Final Water Use Projections .....	5-22
6-1	Ranking of Potential Local Surface Water Sources.....	6-15
6-2	Ranking of Potential Regional Sources .....	6-15
6-3	Water Reuse Terminology .....	6-17
7-1	Results of Evaluation of the Four Alternatives .....	7-5
9-1	System Connections for Multi-County Projects.....	9-2
9-2	Water Treatment Plants Planned to be Expanded by 2030 .....	9-3
9-3	Water Treatment Plants Planned to be Retired before 2030.....	9-4
10-1	Summary of Long-Term (2030) Interconnection Needs .....	10-3
10-2	Recommended Formula for Calculating Water System Interconnection Reliability Target.....	10-5
11-1	Local Water Planning Elements .....	11-3
14-1	Multi-jurisdictional Projects .....	14-3
16-1	Communication Activities and Audiences.....	16-7
16-2	Existing Water Resource Education Programs in the District .....	16-11
17-1	Implementation Tasks and Milestones for Water Conservation Program (Summary of Section 8 Action Items).....	17-2
17-2	Implementation Tasks and Milestones for Water Supply Facilities (Summary of Section 9 Action Items).....	17-4
17-3	Implementation Tasks and Milestones for Water System Interconnections (Summary of Section 10 Action Items).....	17-6
17-4	Implementation Tasks and Milestones for Local Water Management Planning (Summary of Section 11 Action Items).....	17-6
17-5	Implementation Tasks and Milestones for Legislative and Regulatory Recommendations (Summary of Section 13 Action Items).....	17-7
17-6	Implementation Tasks and Milestones for Governance and Inter-jurisdictional Collaboration (Summary of Section 14 Action Items).....	17-8
17-7	Implementation Tasks and Milestones for Funding (Summary of	

Section 15 Action Items)	17-9
17-8 Implementation Tasks and Milestones for Education and Public Awareness (Summary of Section 16 Action Items)	17-10
17-9 Estimated Water Infrastructure Costs	17-11
17-10 Estimated Programmatic Costs to Implement WS Plan	17-13
18-1 Summary of Plan Elements to be Reviewed and Updated Regularly by the District	18-4
18-2 Summary of Critical Performance Measures	18-5

**FIGURES**

ES-1 Planning Process	ES-4
ES-2 District Policy Goals	ES-5
ES-3 Existing Interbasin Transfers	ES-8
ES-4 Projected Water Supply and Demand	ES-9
ES-5 Planning Procedure	ES-11
ES-6 District Plan for Water Treatment Facilities in 2030	ES-14
ES-7 Planned Interbasin Transfers for 2030	ES-15
1-1 District Study Area	1-2
1-2 District Policy Goals	1-4
1-3 Integration of the Three District Long-term Plans	1-7
2-1 Projection of Water Supply and Demand	2-2
2-2 Use of Water Supply Sources in 2030	2-3
2-3 Demand Centers	2-5
3-1 Summary of Existing Interbasin Transfers	3-5
3-2 Existing (through 2005) Water Treatment Plants	3-10
3-3 Existing County Interconnection Locations	3-11
4-1 Baseline Water Demand Projections and Water Conservation (AADD)	4-2
4-2 Population Projection Methodology	4-4
4-3 Water Demand Calculation	4-6
4-4 2001 Water Withdrawal by County (AADD)	4-7
4-5 2001 District Water Withdrawal and Water Use by Type (AADD)	4-7
4-6 District Water Use Profile (AADD)	4-8
4-7 2001 District Residential Water Use (AADD)	4-8
4-8 Historical Residential Single Family Water Use for One County	4-9
4-9 Water Use Model Methodology	4-10
4-10 Water Use Projection With and Without Natural Conservation (AADD)	4-13
5-1 Evaluation Process of Water Conservation Measures	5-7
5-2 Benefit-Cost Analysis Methodology	5-8
5-3 Structure of the DSS Model	5-9
5-4 Present Value of Utility Costs Versus Water Saved	5-15

5-5 Final Water Demand Projections ..... 5-22

6-1 Projected Water Supply and Demand..... 6-2

6-2 Potential Surface Water Sources – Chattahoochee and Etowah Basins..... 6-12

6-3 Potential Surface Water Sources – Flint, Ocmulgee, and Oconee Basins ..... 6-13

7-1 Policy Goals and Evaluation Criteria ..... 7-2

8-1 Priority Water Conservation Measures..... 8-5

10-1 2030 Interconnection Needs..... 10-4

10-2 Essential Water Use..... 10-5

14-1 Levels Leading to Collaboration ..... 14-1

14-2 Future Structure and Roles ..... 14-8
